Electri-Wave

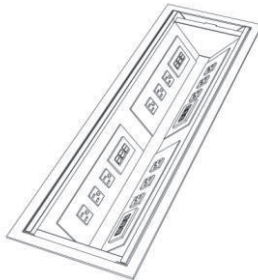

The Electri-Wave is a 30" decorative trough packed with class, style and elegance. Its modern design provides an elegant solution for designers or manufacturers looking for a fresh alternative to traditional designs. It lies flat within the table surface to maximize workspace while maintaining the sleek table design. Electri-Wave's double, swing doors incorporate frosted glass lids and can open from either side of the table for easy cable management. It is equipped with 12 power receptacles and a variety of data connectors. A rim of LED's provides accent lighting in dimly lit settings.

Interface II

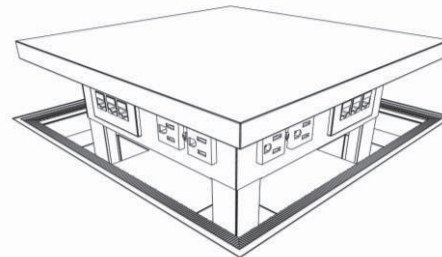

The Interface II undertable power and data unit provides access to 8 power receptacles and cutouts for up to 8 configurable telecom plates. The unit is supplied with a 6 foot power cord with molded 15 Amp plug. It comes standard with a black textured finish. Optional Trim pivot kits and a variety of lids are available as options. CSA Certified.

Oasis Table Troughs

The Oasis table troughs are packed with style, power and data capabilities. Their modern design provides an elegant solution for designers or manufacturers looking for a fresh alternative to traditional designs. Oasis troughs lie flush within the table surface incorporate an integral two door aluminum lids which retracts into the table when opened to maximize table work surfaces and compliment any table design. Fully flexible, Oasis troughs can be customized with up to 16 power receptacles or 12 fully configurable telecom plates depending on your individual requirements.

Intercept

- The Intercept family of pop-up products are designed to compliment many table designs. Intercept has 8 power receptacles and holds four customizable data plates which are fully distributed around its four sides allowing users on all sides of the table easy access to power and data.
- o The Intercept 1 is a manual lift version which incorporate a new gas spring design providing a controlled lifting action when the unit is actuated.
 - o The Intercept 2 is a fully motorized version which is activated via switch attached to the apron of the table
 - o The Intercept 3 is a fully motorized version which is activated conveniently via remote control
 - o The Intercept 4 is a motorized version with extra storage to hold a camera or projector

Decorative tops and trim plates are available in a variety of finishes to provide a decorative accent to the worksurface. Finishes include black textured or brushed stainless steel.

This unit is recommended to be enclosed in a table base.
